Join us at a public forum to learn about the noise wall voting process and design options for your area along I-55 from I-355 (Veterans Memorial Tollway) to I-90/94 (Dan Ryan Expressway) in DuPage and Cook Counties.

As part of the ongoing I-55 Managed Lane study, the Illinois Department of Transportation is hosting three public forums to discuss the potential installation of noise walls along I-55 in conjunction with the planned roadway improvements. The traffic noise analysis has indicated that noise levels in your area warrant the consideration of noise walls. You are highly encouraged to attend as your opinion, along with other residents benefited by noise abatement, will decide whether or not noise walls will be installed along I-55.

At each of the three public forums, there will be a short presentation on the I-55 planning process, noise analysis methodology, and findings beginning at 6:30 pm. Exhibits will be on display, and you will have the opportunity to speak with IDOT and study team representatives. The same information will be presented at each of the forums.

After the forums, a ballot will be sent to all property owners and tenants who would benefit from a noise wall. IDOT will consider all votes received to determine if noise walls will be installed. Please visit www.i55managedlaneproject.org for more information about the noise analysis and the overall I-55 study.

These meetings will be accessible to persons with disabilities. Anyone needing special assistance should contact Keith Spencer of Images, Inc. at (630) 510-3944. Persons planning to attend who will need a sign language interpreter or other similar accommodations should notify the TTY/TTD number (800) 526-0844/or 711; TTY users (Spanish) (800) 501-0864/or 711; and for telebraille dial (877) 526-6670 at least five days prior to the meeting.
